!!!University of Redlands

*The School of Business offers convenient night classes for working professionals

*Nine branch campuses also offer courses in the MBA program

*The MBA program is designed to be completed in either one or two years, depending on student availability and work schedule.

A private, not-for-profit institution, University of Redlands was founded in 1907 and serves approximately 3,600 students at its 160-acre campus. The university consists

of four distinct colleges and schools, all of which offer undergraduate and graduate programs. The School of Business offers its Master of Business Administration (MBA) degree program in four different concentrations, including one in information systems.

Students in the MBA program who choose an emphasis in information systems can expect to enhance their knowledge of information technology while building their management and decision-making skills. The program may benefit students pursuing a career that blends aspects of business and technology.
